

Together2Goal[®]

AMGA Foundation
National Diabetes Campaign

Monthly Campaign Webinar

March 21, 2019

Today's Webinar

- Together 2 Goal® Updates
 - Webinar Reminders
 - AMGA Annual Conference
 - Together 2 Goal® Award Winners
 - 2019 Million Hearts® Challenge
 - Together 2 Goal® Extension
- Overcoming Barriers to Diabetes Self-Management Education (DSME) Referrals
 - Jodi Lavin-Tompkins, M.S.N., RN, CDE, BC-ADM of American Association of Diabetes Educators
 - Valerie Spier, M.P.H., RD, CDE of Sutter Health
- Q&A
 - Use Q&A or chat feature

Webinar Reminders

- Webinar will be recorded today and available the week of March 25th
 - www.Together2Goal.org
- Participants are encouraged to ask questions using the “Chat” and “Q&A” functions on the right side of your screen

2019 AMGA Annual Conference

March 27-30, 2019

National Harbor, MD

- **1 – 2 p.m.:** *Affordability: Taming the Cost Curve with Physician Engagement*
 - *Beth Averbeck, M.D., Senior Medical Director, Primary Care, HealthPartners Care Group*
- **2:45 – 3:45 p.m.:** *The Heart of Diabetes Care: A Practice’s Innovative Approach to Cardiovascular Risk Reduction*
 - *Francis R. Colangelo M.D., M.S.-HQS, FACP, Chief Quality Officer, Lindsay Venditti, M.D., and Alicia Voll Pharm.D., Premier Medical Associates, P.C.*
- **AMGA Foundation Celebration**
 - Friday, March 29, 2019
6:30 – 8:00 p.m. EST

Congratulations 2019 Together 2 Goal[®] Award Winners!

2019 Million Hearts®

Hypertension Control Challenge

- Health professionals, practices, and health systems that have achieved hypertension control rates of at least 80% are eligible to enter
- Submission deadline is April 1
- Visit <https://millionhearts.hhs.gov> for more information

The 2019 Million Hearts® Hypertension Control Challenge is now open!

Share your application by April 1.

New Partnership: National Minority Cardiovascular Alliance

MAKE **well** KNOWN FOUNDATION

 **NMC Alliance**

The NMC Alliance is fielding a brief survey to understand the experiences and challenges faced by patients in managing their heart health.

The perspectives of minority patients and the physicians who treat them are particularly important to the Alliance. The information obtained will help us to understand what issues and problems patients share in common and identify actionable solutions to address these.

Visit <https://www.surveymonkey.com/r/2TMHKTQ>
to view the survey.

Together 2 Goal.

AMGA Foundation
National Diabetes Campaign

What is DSMT (diabetes self-management training)?

- Medicare covered benefit (AKA: DSME/T, DSMES)
 - If program/service is accredited by ADA or AADE
 - If program/service is a Medicare part B supplier
- Two billing codes: G0108 (individual) & G0109 (group)
- Requires referral from certified provider “managing the beneficiary’s diabetes”
 - Certified providers include MD/DO, NP, CNS,PA
 - Referral expires after 1 year
- Is NOT an incident-to service
- May be billed on same day as physician visit (different NPI)

Medicare Covers: Initial & Follow-up

• Initial Service

- Is a once-in-a-lifetime benefit
- Beneficiary has 12 consecutive months after the 1st G code billing to complete
- 1 hour of individual + 9 hours of group
- May offer more of the 10 hours as individual if provider puts on referral and beneficiary has “special needs”

• Follow-up Service

- Coverage for 2 hours per calendar year, either group or individual, after initial benefit
- Requires new referral
- Follow-up:
 - Reinforces prior education
 - Addresses new issues
 - Introduces new learning
 - Builds confidence
 - Reduces regression back into former habits
 - Focus on problem solving and living with diabetes

What is DSMT?

- Self-Management outcomes are behavioral
 - Use AADE7™ self-care behaviors framework: Healthy Eating, Being Active, Monitoring, Taking Medications, Reducing Risk, Problem Solving, Healthy Coping*
 - See clinical outcomes as a result of behavior changes
 - Skilled in assessing participant barriers, problem solving, coaching (not just teaching)
 - A big part of DSMES is setting SMART goals for behavior change and following up with the individual, assessing progress

[*www.diabeteseducator.org](http://www.diabeteseducator.org)

Not a One and Done!

- Education and support happens over time; follow up is critical
- Education provided is **evidence-based**
- Accreditation involves meeting 10 national standards= **quality**
- 2015 systematic review: All methods of DSME achieved greater reductions in A1c compared to controls!=**equivalent to adding one oral agent!**
- DSMT encounters provided by diabetes educators in accredited programs are likely to show lower cost patterns compared to controls.
 - **Multiple episodes** of DSMT are more likely to lead to adherence to medication regimen.²

• 1 C.A. Chvala, et al., Diabetes self-management education for adults with type 2 diabetes mellitus: A systematic review of the effect on glycemic control, Patient Educ Couns (2015), <http://dx.doi.org/10.1016/j.pec.2015.11.003>

• 2 Duncan et.al. *The Diabetes Educator*, Volume 37, Number 5, September/October 2011

Current State

- US: **Utilization is low**: <5% of Medicare beneficiaries, <6.8% of privately insured
- Success requires a **systematic approach** to support patients' behavior change efforts.
- High-quality DSMES has been shown to improve
 - patient self-management
 - Satisfaction
 - glucose outcomes.

Four Times to Refer

Sutter Health's Campaign 2016-2018

Valerie Spier, MPH, RD, CDE

Quality Coordinator

AADE Accredited Diabetes Education Program

Sutter Health, California Bay Area

- Not-for-profit
- Multidisciplinary clinics
- 67,000 doctors, advanced practice clinicians & staff

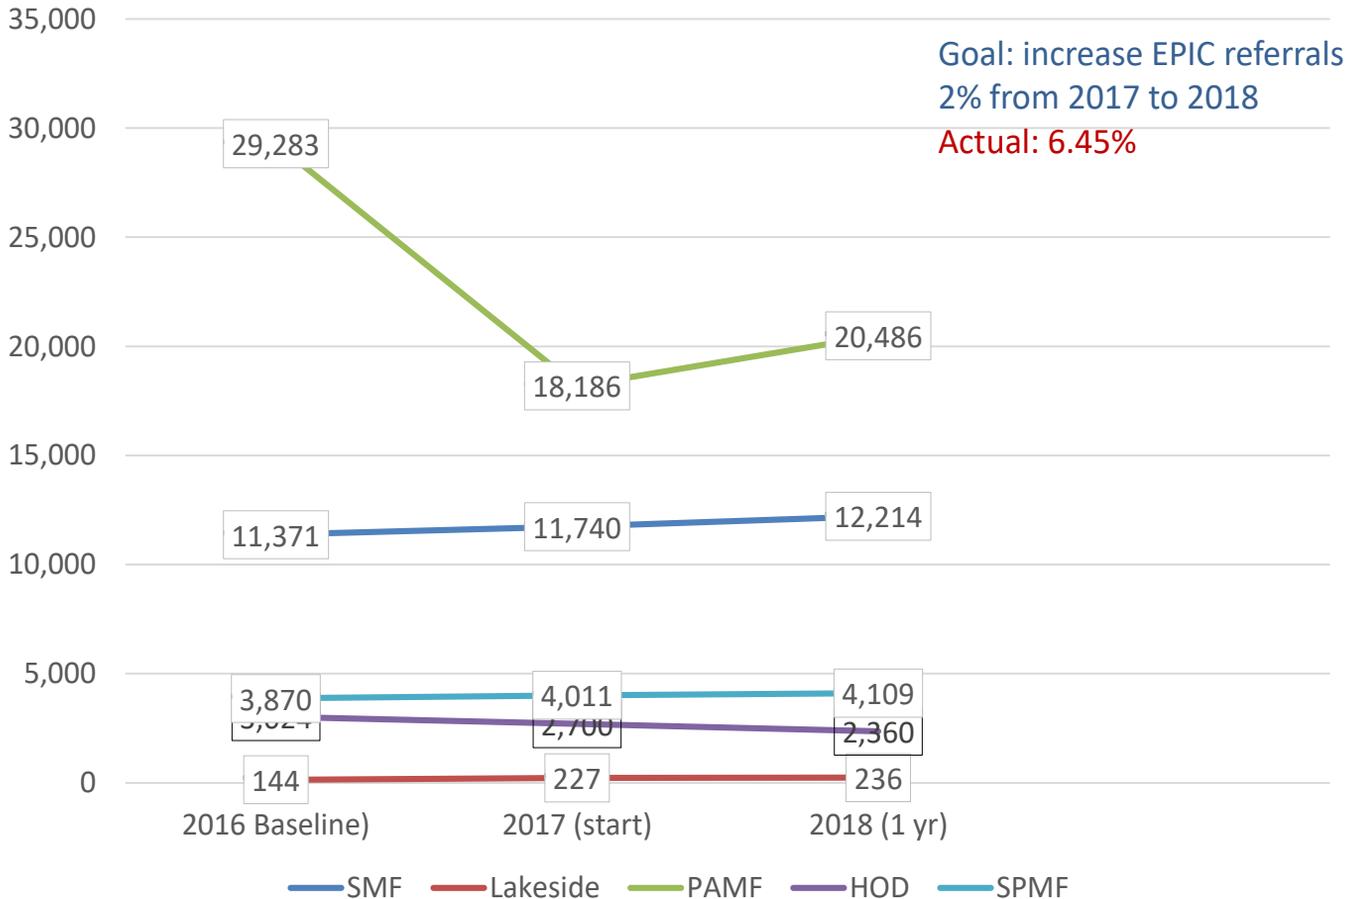

SHIDEN Diabetes Education Program

- 43 Centers
- 13 Affiliates
- ~90 Diabetes educators (85% RD, CDEs)

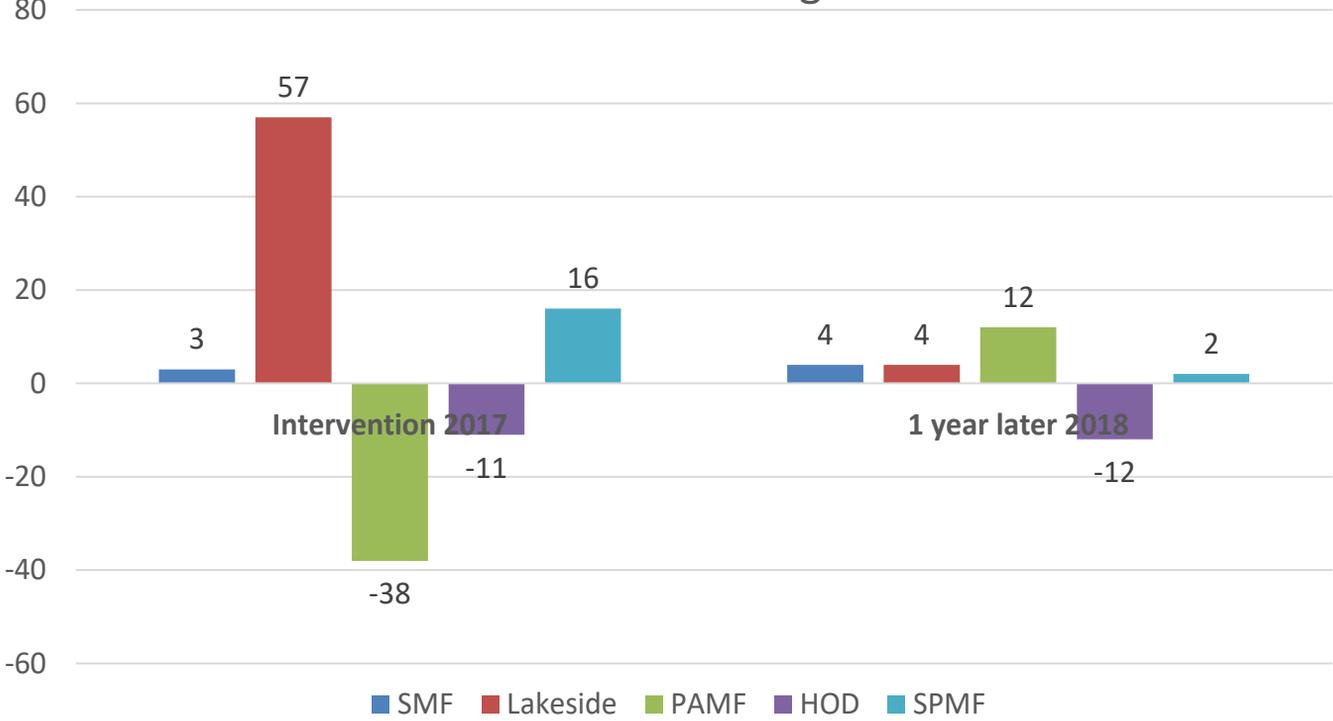

Continuous Quality Improvement Project

- Increase Provider Referrals to DSMES
 - CQI Goal: Increase % referred to all SHIDEN by 3% above baseline (2017 to 2018).

SHIDEN Total eReferrals

% Annual Change

Overview

1. 2016 T2G Planks Chosen
2. Increasing Referrals
 - System level work by T2G quality team
 - Local affiliate level work by SHIDEN education programs
3. Collect systematic data and local data
 - Baseline, during & post intervention
4. Conduct experiments
5. Meet regularly to discuss results
 - System (bi-monthly), local (monthly)
6. Advertise the campaign

Data

- 1) Identify analyst to support project
- 2) Narrow report
 - Include** DSME (G0109 or G0108)
 - Exclude MNT (medical nutrition therapy)
 - Include** departments in our program
 - Include** orders for both internal and external referrals generated by EHR
 - Include** any referring providers
- 3) Validate report (1 center, compare hand count run by different method), tweak, repeat

Experiments

Making it Easier to Refer

- ✓ Create standard electronic referral
- ✓ Create standard paper referral
- ✓ Create cheat sheet on how to refer
- ✓ Identify and fix internal barriers
 - ✓ Education on how to create order in EHR
 - ✓ Information systems fix access to order
- ✓ Standardize process of scanned (ext) referral

Electronic Referral

Process Inst:

Diabetes self-management education and training (DSME/T) and medical nutrition therapy (MNT) require one of the following documented for all insurances:

- A fasting blood sugar great than or equal to 126 mg/dl on two different occasions
- A 2 hour post-glucose challenge greater than or equal to 200 mg/dl on 2 different occasions; or
- A random glucose test over 200 mg/dl for a person with symptoms of uncontrolled diabetes.

*Medicare coverage: 10 hrs initial DSMT + 3 hrs MNT in first 12 months. Annually thereafter- 2 DSMT + 2 hrs follow-up MNT. Additional MNT hours require a change in medical condition, treatment/and or diagnosis.

Definition of Diabetes (Medicare)

Medicare coverage of DSMT requires the physician to provide documentation of a diagnosis of diabetes based on ONE of the following:

- a fasting blood sugar greater than or equal to 126 mg/dl on two different occasions;
- a 2 hour post-glucose challenge greater than or equal to 200 mg/dl on 2 different occasions; or
- a random glucose test over 200 mg/dl for a person with symptoms of uncontrolled diabetes.

Source: Volume 68, #216, November 7, 2003, page 63261/Federal Register. Other payers may have other coverage requirements.

Experiments

Build Bridges and Foster Partnerships

- ✓ Attend team huddles
- ✓ Attend physician meetings (5-10 min.)
- ✓ Hold lunch/learn for RNs
- ✓ Work with Community Health Resource Ctr
- ✓ Meet with nurse case managers, discharge planners
- ✓ Enlist quality leaders to champion effort
- ✓ Acknowledge/thank top referring doctors

Experiments

Promote/Market Services

- ✓ Create flyers for patients & doctors 4x to Refer
- ✓ Create SHIDEN program brochure
 - Personal delivery, 1:1
 - Mail
 - Left out in lobbies, urgent care, resource ctr.
 - Huddles, MD departmental meetings
- ✓ Hold lunch/learn for RNs
- ✓ Welcome email to new physicians

4 Times to Refer Flyers

Diabetes Self-Management Education and Support

A National Best Practice for People With Diabetes*

Engaging in diabetes self-management education and support:

- A. Lowers A1C as much as many diabetes medications
- B. Helps patients better manage their **blood pressure**
- C. Improves management of **cholesterol levels**
- D. **Decreases** costs associated with diabetes

Key times to refer:

1. At **diagnosis**
2. During an **annual assessment**
3. When new **complicating factors** arise
4. During **transitions of care**

Diabetes Educators Partner with Patients to Provide:

- Support for day-to-day problem solving on issues that impact their health and well-being
- Guidance on using self-monitoring data to improve blood glucose levels
- Educational resources to help them understand and optimize the use of medications
- Tips for behavioral changes: physical activity, healthy eating and healthy coping

*This referral approach is supported by:

The American Diabetes Association
The American Association of Diabetes Educators
The Academy of Nutrition and Dietetics
The National Diabetes Education Program

<http://www.sutterhealth.org/diabetes>

Call a
diabetes educator for
more information
or visit:
Sutterhealth.org/diabetes

Diabetes Support is Here for You!

Research shows diabetes self-management education and support can help you:

- A. Improve your blood sugar and A1C levels
- B. Better manage your **blood pressure**
- C. Better manage your **cholesterol**
- D. **Decrease** the cost of your diabetes care

Diabetes self-management education and support is available to you:

1. At diagnosis
2. For a yearly diabetes education review
3. When new health issues arise
4. During changes in health care needs

Diabetes Educators Will Partner With You to Help You:

- Solve problems with day-to-day issues that impact your health and well-being
- Monitor and improve your blood sugar levels
- Understand your medications
- Create plans for healthy eating, physical activity, and coping

Diabetes self-management education and support is endorsed by:

The American Diabetes Association
The American Association of Diabetes Educators
The Academy of Nutrition and Dietetics
The National Diabetes Education Program

<http://www.sutterhealth.org/diabetes>

Ask Your
Doctor About
Working with a
Diabetes Educator

Welcome Email

Hi Doctor X,

First, let me welcome you to the Fremont Palo Alto Medical Foundation.

I would like to make you aware that you have a tremendous resource in our Nutrition and Diabetes education department, located in Building 1, 2nd Floor in the OB department. I'd like to personally make myself available to meet with you and I can also reply to an Outlook email or EPIC staff message if you have any questions about our services.

To refer a patient for general nutrition needs: you can enter ref0154 or the word, "nutrition" in order entry.

To refer a patient for diabetes education: you can enter ref0071 or enter the word, "diabetes" in order entry.

If you save it to your preference list, that makes it super easy to find in the future and remember to include any relevant diagnosis by associating them on the order. It is also helpful to write down any special needs or focus on your scheduling notes to us.

The ADA/AADE and the AMGA have been campaigning to raise awareness of the 4 times to refer for diabetes. Please see the attached flyers that further explain how we can partner with you in caring for persons with diabetes.

I look forward to working with you.

Valerie Spier, MPH, RD, CDE

 - Ambulatory Quality Bulletin –outpatient quality leaders
- ✓ External stakeholder meeting

Presentation to Doctors

Diabetes Self-Management Education and Support for Adults with Type 2 Diabetes: **ALGORITHM of CARE**

ADA *Standards of Medical Care in Diabetes* recommends all patients be assessed and referred for:

FOUR CRITICAL TIMES TO ASSESS, PROVIDE, AND ADJUST DIABETES SELF-MANAGEMENT EDUCATION AND SUPPORT

1 AT DIAGNOSIS

2 ANNUAL ASSESSMENT OF EDUCATION, NUTRITION, AND EMOTIONAL NEEDS

3 WHEN NEW COMPLICATING FACTORS INFLUENCE SELF-MANAGEMENT

4 WHEN TRANSITIONS IN CARE OCCUR

WHEN PRIMARY CARE PROVIDER OR SPECIALIST SHOULD CONSIDER REFERRAL:

- Newly diagnosed. All newly diagnosed individuals with type 2 diabetes should receive DSME/S
- Ensure that both nutrition and emotional health are appropriately addressed in education or make separate referrals

- Needs review of knowledge, skills, and behaviors
- Long-standing diabetes with limited prior education
- Change in medication, activity, or nutritional intake
- HbA_{1c} out of target
- Maintain positive health outcomes
- Unexplained hypoglycemia or hyperglycemia
- Planning pregnancy or pregnant
- For support to attain or sustain behavior change(s)
- Weight or other nutrition concerns
- New life situations and competing demands

Change in:

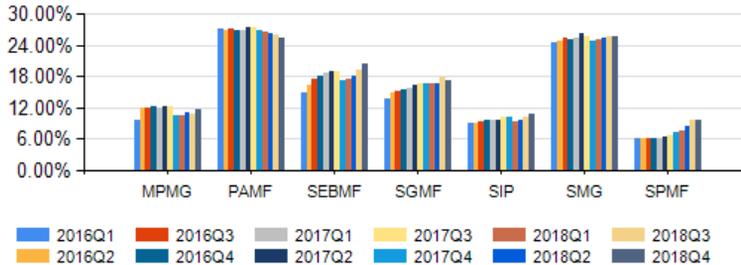

- Health conditions such as renal disease and stroke, need for steroid or complicated medication regimen
- Physical limitations such as visual impairment, dexterity issues, movement restrictions
- Emotional factors such as anxiety and clinical depression
- Basic living needs such as access to food, financial limitations

Change in:

- Living situation such as inpatient or outpatient rehabilitation or now living alone
- Medical care team
- Insurance coverage that results in treatment change
- Age-related changes affecting cognition, self-care, etc.

System T2G Data: Referral Rates
