

2020 Q3: Distribution of Measure Performance Rate

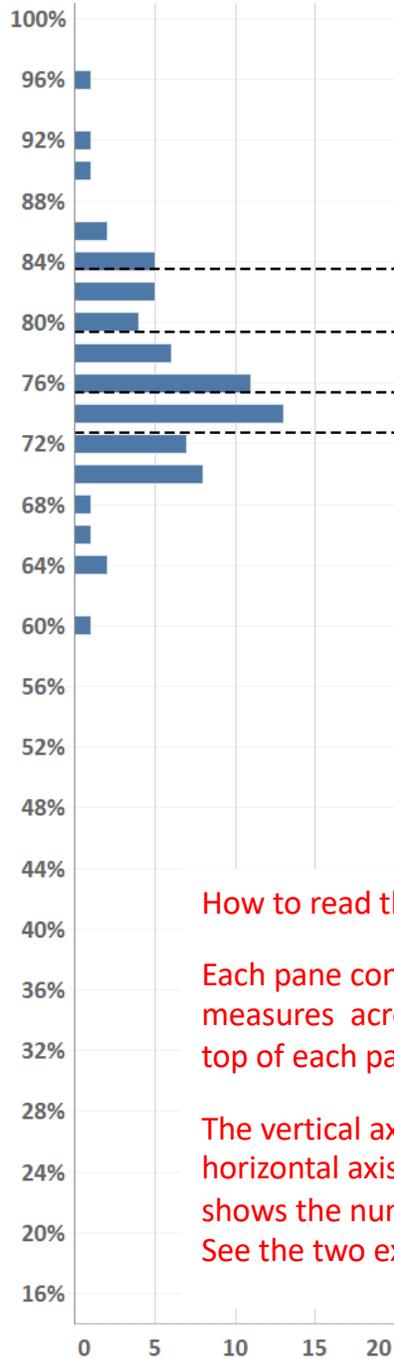

Bundle Control

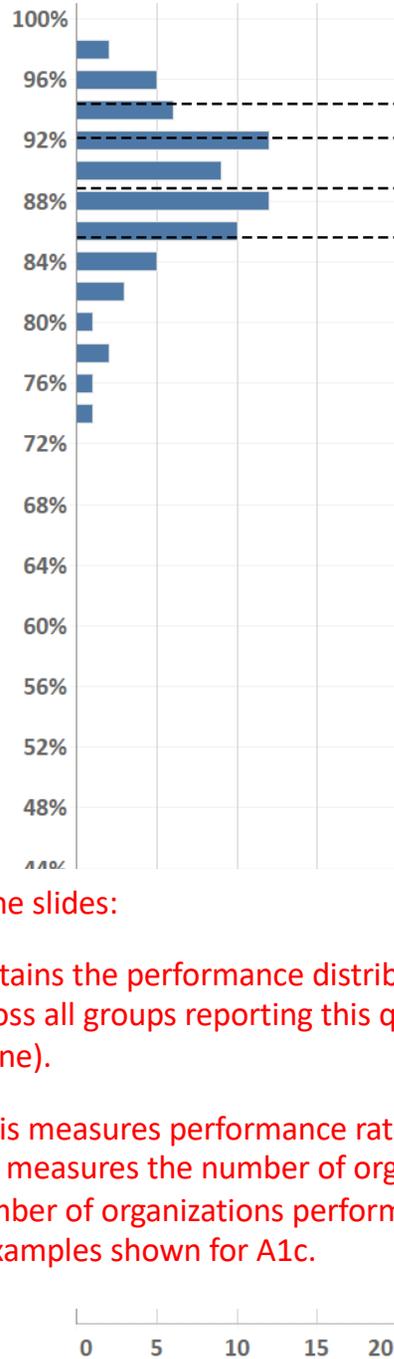

A1c Control

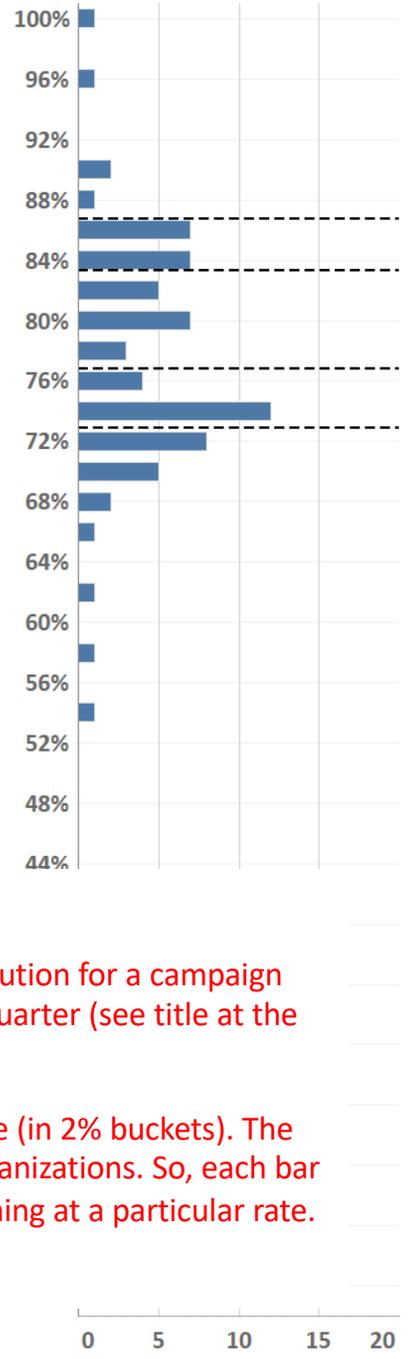

BP Control

Attn for Nephropathy

Lipid Management

How to read the slides:

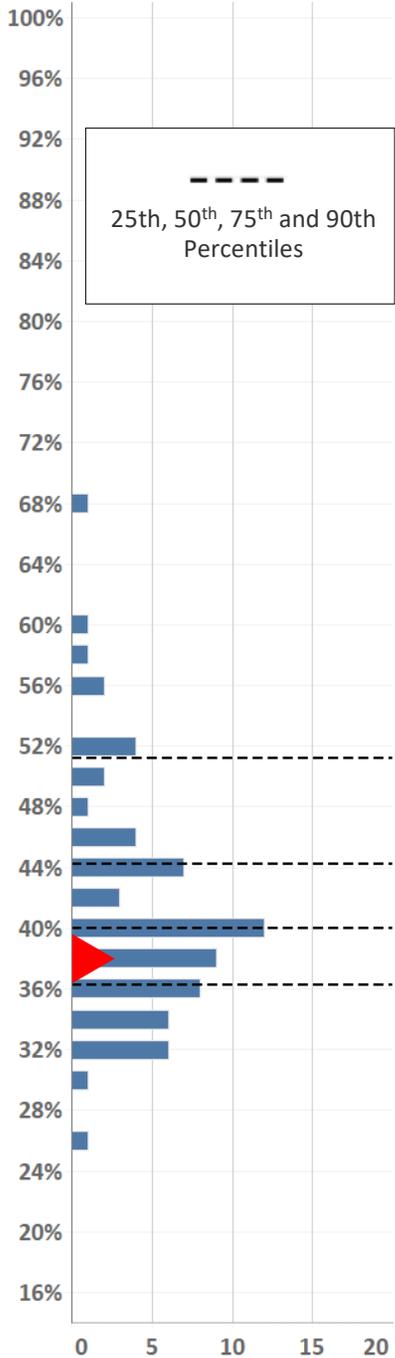

Each pane contains the performance distribution for a campaign measure across all groups reporting this quarter (see title at the top of each pane).

The vertical axis measures performance rate (in 2% buckets). The horizontal axis measures the number of organizations. So, each bar shows the number of organizations performing at a particular rate. See the two examples shown for A1c.

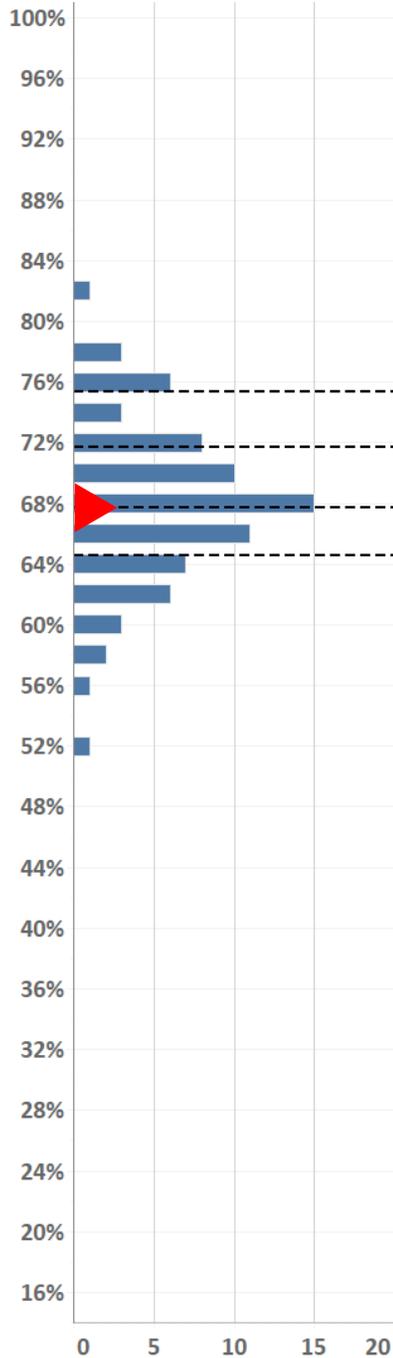

Number of Health Care Organizations (Reporting for 2020 Q3)
